

Americas Solution

Better health care for more people
at less cost

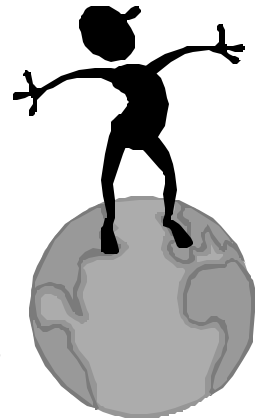

We Believe...

- America is slipping behind on every health measure.
- It is more important than ever to leverage our resources.
- Strategically amplified voices are more effective than a single voice.
- If we work together we can align national policy with local agendas and strategies.
- Some communities already have results that prove the positive impacts of moving from a chaotic health care system to an orderly one.
- CJA provides a structured opportunity to learn from these pioneers.

Is a membership organization that gives you access too:

- Best practices
- Tools and resources
- Discounted rates for learning institutes
- A peer network of mentors and coaches
- Community Health Leadership Network (CHLN) expert consultants
- Conferences
- National recognition

Learn from Others

- Resource navigator will connect you to mentor communities
- Assess your community's readiness
- Implementation plans to replicate best practice models smarter, faster and bolder in your community
- Tools for issues all communities struggle with:
 - Measuring value
 - Sustainability
 - Building local readiness and capacity
 - Getting physicians involved
 - Cultural competence
 - Language access

High Impact Learning Institutes

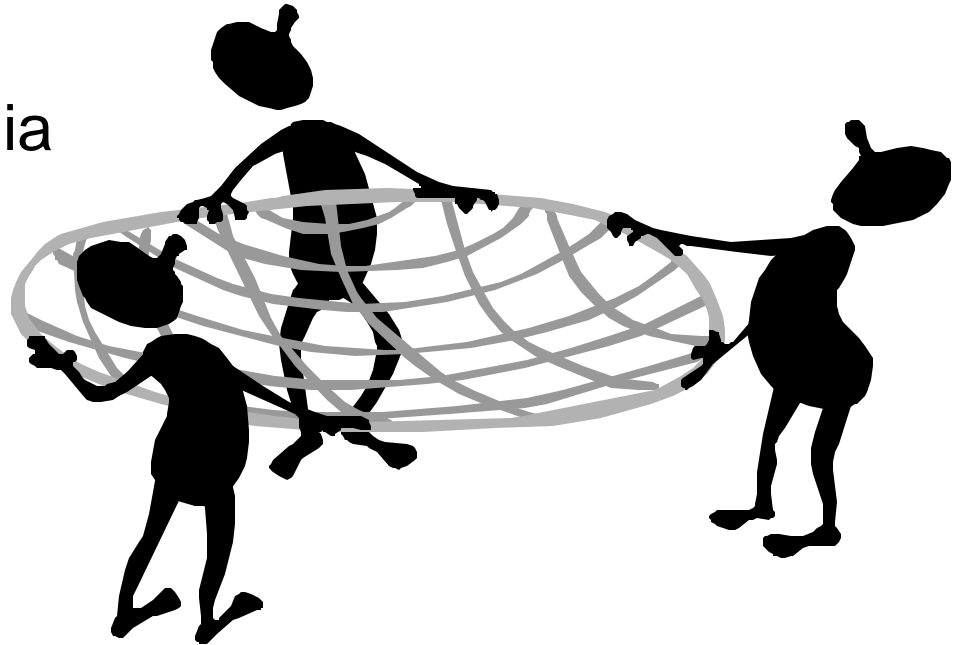

- Return on Community Investment – March
- Pharmacy Programs
- Outreach and Enrollment
- Case Management and Care Coordination

CHLN
